Professional Summary

MERN Stack Developer with hands-on, project-based experience building and deploying full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proven ability to design RESTful APIs, implement JWT based authentication, build real-time features with Socket.IO, and integrate AI services into production-ready systems. Skilled in relational and non-relational database design across MongoDB and MySQL, including schema modeling, indexing, and query optimization. Experienced in independently managing the full development lifecycle — from architecture to deployment — with a strong foundation in Data Structures, Algorithms, and OOP. Graduating with a BSc in Information Technology, with a keen interest in scalable backend systems and clean, maintainable API design.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Redux, Zustand, Tailwind CSS, Vite

Backend: Node.js, Express.js, RESTful APIs, JWT, Socket.IO

Databases: MongoDB, MySQL

Languages: JavaScript, Java, C++, Python

Tools: Git, Cloudinary, Postman, VS Code

Fundamentals: Data Structures & Algorithms, OOP, System Design Basics

Projects

TalkNest — Full-Stack Real-time Social Platform

2025

MongoDB, Express.js, React.js, Node.js, Socket.IO, Tailwind CSS, JWT, Cloudinary

[GitHub](#) | [Live](#)

- Developed real-time chat, follow system & live notifications using Socket.IO.
- Designed and implemented 7+ secure RESTful APIs with JWT authentication and Cloudinary integration.
- Engineered a responsive React frontend using Zustand for scalable state management.

Interview AI — AI-Powered Interview Preparation Platform

2026

MongoDB, Express.js, React.js, Node.js, Google Gemini API, JWT, Puppeteer

[GitHub](#) | [Live](#)

- Architected AI-driven interview report generator producing tailored questions, skill-gap analysis & prep roadmap using Gemini with Zod schema-constrained output.
- Designed secure RESTful APIs with JWT (httpOnly cookies) & server-side token blacklisting for true logout.
- Integrated resume parsing (PDF/DOCX) and AI-tailored resume PDF export via Puppeteer.

MedConnect BD — Telehealth & Emergency Services Platform

2026

MongoDB, Express.js, React.js, Node.js, JWT, Socket.IO, Google Calendar API

[GitHub](#)

- Developed a multi-role MERN platform unifying doctor booking, telemedicine, AI-assisted prescription reading, blood-donor matching, and ambulance dispatch for the Bangladesh healthcare context.
- Configured role-based access control for patients, doctors, blood donors, ambulance operators, and admins with secure JWT authentication.
- Designed an ambulance marketplace flow: operator registration, admin approval, availability toggling, and race-safe request acceptance.
- Deployed production-ready on Render with separate frontend and backend services.

Education

University of Information Technology & Sciences (UITS)

2022 – 2026

BSc in Information Technology

CGPA: 3.57/4.00

RCCI Public School And College, Rangpur

2019 – 2021

Higher Secondary Certificate (Science)

GPA: 5.00/5.00

Leadership & Achievements

Senior Executive, Programming Wing — UITS

2025

- Organizing programming contests and mentoring juniors.

Competitive Programming

- Solved 60+ algorithmic problems on LeetCode.

Certifications

- Mastering HTML5 and CSS3 (Advanced Level) — Udemy

[View](#)

- Victory Day Programming Contest 2022 — UITS

[View](#)

- NASA Junior Pilot Program — NASA

[View](#)

Languages

Bangla — Native | English — Professional Working Proficiency
